

Waste collection information

This video clip shows how waste is now collected.

<https://fb.watch/mRKdBkbRKn/>

There are three waste collection vehicles, black bin, recycling and food and garden waste. This means that waste collections for each waste stream can happen at different times on your waste collection day.

Missed collections – If your waste has not been collected by the next day, you can report it directly here –

https://mycouncil.milton-keynes.gov.uk/service/Missed_Collections

Missing bins or sacks - If you do not have any of the new bins please put your waste out for collection in sacks this week, and we will collect. This waste will have to be treated as black sack waste because of how we now split recycling. We cannot collect waste from blue boxes due to health and safety, so please place this into sacks, carefully wrapping any broken glass.

Do please report missing waste containers directly to Customer Services.
